

# PRIVACY POLICY

*Last updated: May 16, 2026*

This Privacy Policy describes how this website (the “Service”) handles information when you visit. By using the Service, you agree to the practices described in this policy.

## 1. Who Operates This Service

This is an independent personal website. It is not affiliated with any company or organization. For contact information, see Section 9.

## 2. Information Collected

### 2.1 Cloudflare Web Analytics

This website uses Cloudflare Web Analytics, a privacy-focused analytics service provided by Cloudflare, Inc. Cloudflare may automatically collect the following data when you visit the Service:

- IP address (used to derive approximate geographic location)
- Browser type and version
- Operating system
- Referring URL
- Pages visited and time spent on the Service
- Device type (desktop, mobile, tablet)

Cloudflare Web Analytics is designed to be cookieless and does not track individual users across sites. Data is processed and aggregated by Cloudflare. For details on how Cloudflare handles this data, refer to the Cloudflare Privacy Policy at <https://www.cloudflare.com/privacypolicy/>.

### 2.2 Local Time (Client-Side Only)

The Service reads your device’s local time directly in your browser to render a dynamic background that adapts to the time of day.

This data is processed entirely on your device and is never transmitted to any server, stored, logged, or shared with any third party. It leaves your browser in no form whatsoever.

## 3. Information We Do Not Collect

The operator of this Service does not directly collect, store, or process any personal data. Specifically:

- No accounts or user profiles are created.
- No cookies are set by this Service.
- No forms, sign-ups, or login systems are present.
- No data is sold, rented, or shared with advertisers.
- No tracking pixels or third-party ad scripts are used.

## 4. Third-Party Services

The Service integrates with third-party APIs and platforms for display and showcase purposes, including but not limited to Spotify, GitHub, GitLab, and Steam. These integrations may result in requests being made to third-party servers from your browser.

Certain content displayed on the Service, such as game cover images, music album artwork, and book covers, is loaded directly from third-party content delivery networks (CDNs). This means your browser makes a direct request to those servers, and your IP address may be visible to them as part of a standard HTTP request. Such CDNs include, but are not limited to, those operated by Steam (shared.akamai.steamstatic.com, cdn.cloudflare.steamstatic.com), Spotify (i.scdn.co), AniList (s4.anilist.co), and Amazon (m.media-amazon.com).

These requests do not involve cookies, tracking pixels, or any persistent identification. They are standard image load requests equivalent to loading any image hosted externally.

Any data handling by those third-party services is governed by their own respective privacy policies. The operator of this Service has no control over and takes no responsibility for the data practices of third-party services.

## 5. Cookies

This Service does not set any cookies directly. Cloudflare, as an infrastructure provider, may set cookies for security or performance purposes such as bot protection. These are governed by Cloudflare's own policies.

## 6. Data Retention

The operator of this Service does not retain any personal data. Aggregated analytics data retained by Cloudflare is subject to Cloudflare's own data retention policies.

## 7. Your Rights

Since this Service does not directly collect or store personal data, there is no personal data held by the operator to access, correct, or delete.

If you have concerns about data processed by Cloudflare, please refer to Cloudflare's privacy documentation and their data subject request process.

## 8. Changes to This Policy

This Privacy Policy may be updated from time to time. Changes will be reflected on this page with an updated Last updated date. Continued use of the Service after changes are posted constitutes acceptance of the revised policy.

## 9. Contact

If you have questions about this Privacy Policy, contact: [contact@sp4r0ww.online](mailto:contact@sp4r0ww.online)
